

2009 WELLAR LECTURE ON
GEO SKILLS AND APPLIED GEOGRAPHY

On January 27, 2009 Dr. Barry Wellar, Director of Geography Awareness Week, and Professor Emeritus, University of Ottawa, presented the inaugural Wellar GeoSkills Lecture at the University of Ottawa.

The Wellar GeoSkills Lecture Series was created by the Laboratory for Applied Geomatics and Geographic Information Systems Science, University of Ottawa, in recognition of Dr. Wellar's outstanding record of contributions in remote sensing, geomatics, GIS, research methods, and applied geography in the fields of transportation and urban planning and development.

The title of Dr. Wellar's lecture is ***Elements of a Framework for GeoSkills as the Focus of New Approaches in Applied Geography Education and Training***. The lecture builds directly on the GeoSkills Showcase that he created as part of Geography Awareness Week 2008. The PowerPoint slides used in Dr. Wellar's Lecture can be accessed by clicking on the lecture title.
