

Pjila'si, Atelihai, Tunngasugit, Tshima minu-takushinieku, Welcome, Bienvenue!

We acknowledge that the lands on which Memorial University's campuses are situated are in the traditional territories of diverse Indigenous groups, and we acknowledge with respect the diverse histories and cultures of the Beothuk, Mi'kmaq, Innu, and Inuit of this province. The island of Ktaqmkuk [uk-dah-hum-gook] (Newfoundland) is the traditional and unceded territory of the Beothuk and Mi'kmaq. We also acknowledge Labrador as the traditional and unceded homelands of the Innu of Nitassinan and the Inuit of Nunatsiavut.

Les terres sur lesquelles sont situés les campus de l'Université Memorial se trouvent sur les territoires traditionnels de divers groupes autochtones, et nous reconnaissons avec respect les diverses histoires et cultures des Béothuks, des Mi'kmaqs, des Innus et des Inuits de cette province.

We are delighted to welcome geographers and friends from across Canada and beyond to St. John's for this year's Canadian Association of Geographers annual meeting! CAG2024 follows the theme “**edges.**” Edges are where one thing ends and another begins. Where disciplines meet and interact. Where we push boundaries. Where transformation happens. ‘Edges’ also celebrates scholarship at the margins. A focus on the edges highlights opportunities to lift up voices, approaches, and sub-disciplines that are conventionally underappreciated.

As the oldest Geography department in Atlantic Canada, we are proudly celebrating over 60 years of contributions to geographical teaching and scholarship. We are also excited to introduce Canadian geographers to our outstanding graduate student, post-graduate, and faculty researchers who “Think Outside” and engage a wide range of geographical themes and subdisciplines.

During the conference, we invite you to experience all St. John's and the province has to offer, from vibrant cultural spaces and activities to rugged natural beauty. While we have a packed and exciting slate of sessions, events, and field trips, we hope you also take the chance to explore and enjoy this beautiful place. The [Newfoundland and Labrador Tourism Guide](#) and [Destination St. John's Visitors Guide](#) and [events calendar](#) list many helpful resources and suggestions to make your visit memorable.

Le département de géographie de l'Université Memorial de Terre-Neuve-et-Labrador est ravi d'accueillir la 74e congrès annuel de l'ACG à St. John's, Terre-Neuve-et-Labrador ! Le congrès de l'ACG2024 est axé sur le thème des « **limites** ». Les limites sont l'endroit où une chose se termine et une autre commence. Là où les disciplines se rencontrent et interagissent. Là où nous repoussons les frontières. Là où la transformation se produit. Le thème des limites célèbre également l'érudition en marge de la société. L'accent mis sur les limites met en évidence les possibilités de faire entendre des voix, des approches et des sous-disciplines qui sont traditionnellement sous-estimées et sous-utilisées. Nous accueillons des perspectives innovantes et des méthodologies diverses qui remettent en question le statu quo et élargissent notre compréhension de la géographie.

En tant que plus ancien département de géographie du Canada atlantique, nous célébrons fièrement plus de 60 ans de contributions à l'enseignement et à la recherche géographique. Nous sommes également ravis de présenter aux géographes canadiens nos remarquables étudiants diplômés, postdoctorants et professeurs chercheurs, qui « pensent à l'extérieur » et explorent un large éventail de thèmes et de sous-disciplines géographiques.

Pendant le congrès, nous vous invitons à découvrir tout ce que St. John's et la province ont à offrir, des espaces culturels vibrants et des activités à la beauté naturelle brute. Bien que nous ayons un programme chargé et passionnant de sessions, d'évènements et d'excursions, nous espérons que vous prendrez également le temps d'explorer et de profiter de cet endroit magnifique. Le [Guide touristique de Terre-Neuve-et-Labrador](#) et le [Guide des visiteurs de Destination St. John's](#), ainsi que le [calendrier des évènements](#), proposent de nombreuses ressources utiles et des suggestions pour rendre votre visite mémorable.

Note: All conference participants are expected to adhere to the [CAG Statement on Collegial Conduct](#)

Remarque: Tous les participants à la conférence doivent adhérer à la [Déclaration de l'Association canadienne des géographes sur la conduite collégiale et les échanges respectueux](#)

Key events and lectures/Évènements et conférences principaux

Opening welcome and plenary

Thursday, August 15, 8:30-10 a.m., Bruneau Centre IIC2001

Welcome from **Saqamaw Mi'sel Joe (Mi'kmaw), Honorary Chief, Miawpukek First Nation**

CAG Welcome from Nathalie Gravel, President of the CAG, and the Local Organizing Committee

Accueil d'ouverture et plénière

Jeudi 15 août, 8 h 30 – 10 h, Centre Bruneau IIC2001

Accueil par **Saqamaw Mi'sel Joe (Mi'kmaw), Chef honoraire de la Première Nation Miawpukek**

Accueil de l'ACG par Nathalie Gravel, Présidente de l'ACG, et le Comité d'Organisation Local

Plenary lecture/Conférence plénière

Dre. Sherry Pictou (Mi'kmaw), Canada Research Chair in Indigenous Governance/Chaire de recherche du Canada en gouvernance autochtone, Dalhousie University

Indigenizing (Mi'kmaq-izing) the Edges: Restoring relational mobilities with Mother Earth

Usually geographical terms like ‘Edges’ or ‘Boundaries’ conjure up conceptions of spatial limitations associated with confined spaces, private property, ownership, and segregation and exclusion — all indicative of the dispossession of Indigenous relations for capitalist ones, whereby life beyond humans and the natural ecologies in which they are rooted, become commodities. This talk seeks to take up this year’s CAG theme: “edges” in an interest of not only pushing boundaries, but also transforming them through the interaction of multiple perspectives with Indigenous scholarship or worldviews at their center. Through this talk we will explore Anishinaabe, John Borrows’ concept of relational mobilities (the intellectual as well as physical) and freedom from an Indigenous perspective as holding potential to reimagine and transform boundaries into relational mobilities as spaces for Wit-lukutimk Wskitqamu (working together, not over, with Earth).

Opening Reception and CAG Awards ceremony/ Réception d’ouverture et cérémonie de remise des prix de l’ACG

Thursday August 15/jeudi 15 août, 5-7 p.m., Emera Innovation Centre (Signal Hill Campus)

Join us for the conference opening reception and presentation of the CAG Awards at the Emera Innovation Centre on Memorial University’s Signal Hill campus. Shuttle buses depart from outside the Macpherson College residences on the main campus immediately following the final afternoon sessions. For those wishing to walk, it takes about 45 minutes from campus, but there is no bus service, so if traveling independently we encourage you to share a taxi. Appetizers and soft drinks will be served and bar service is also available. Buses will return back to campus after the event.

Rejoignez-nous pour la réception d’ouverture de la conférence et la remise des prix de l’ACG au Emera Innovation Centre, situé sur le campus Signal Hill de l’Université Memorial. Des navettes partiront de l’extérieur des résidences du Collège Macpherson sur le campus principal immédiatement après les dernières sessions de l’après-midi. Pour ceux qui souhaitent marcher, cela prend environ 45 minutes depuis le campus, mais il n’y a pas de service de bus, donc si vous voyagez indépendamment, nous vous encourageons à partager un taxi. Des amuse-bouches et des boissons gazeuses seront servis et un service de bar sera également disponible. Les bus retourneront au campus après l’évènement.

CAG Lecture/Conférence de l’ACG

Friday, August 16, 4:30-5:30 p.m., reception to follow

Vendredi 16 août, 16 h 30 – 17 h 30, suivi d’une réception

Whale Atrium, Core Science Facility

Dre. Kate Sherren, Professor and Director, School for Resource and Environmental Studies/Professeure et Directrice, École des études sur les ressources et l’environnement, Dalhousie University

Landscapes on the Edge (Paysages à la Limite)

Many landscapes are on the edge literally, particularly here on the Atlantic Coast of Canada. But landscapes everywhere are on the edge metaphorically: on the edge of change. Tackling the collective challenges we face, and redefining a 'good life' in these new circumstances, will likely transform the places and landscapes that we care about. Yet change is hard and it is felt unevenly across space and social strata. We often instinctively feel that the landscapes of the present should dominate the future—an idea I've been calling climax thinking—but in many cases those current landscape settings solve old problems and cause new ones. Drawing on recent empirical Atlantic research about renewable energy and coastal adaptation, this lecture explores some of the cultural shifts required to reimagine our landscapes and to meet the challenges ahead, identifying key roles for geographers along the way.

Canadian Association of Geographers Annual General Meeting

Assemblée générale annuelle de l'Association canadienne des géographes

Saturday, August 17, 4:15-5:30 p.m./ Samedi 17 août, 16 h 15 – 17 h 30, Bruneau Centre IIC 2001/online

Closing reception: Kitchen Party!

Réception de clôture: Fête de cuisine !

Saturday, August 17, 6-8 p.m./Samedi 17 août, 18 h – 20 h

Join fellow delegates at the Spirit of Newfoundland (Gower Theatre, 208 Gower St.) for the closing reception, kitchen-party style. Newfoundland is famous for its kitchen parties. In a relaxed atmosphere, guests will be encouraged to move around the room and have time to chat while they partake in a good feed of Newfoundland-inspired appetizers and finger foods, with local drinks for purchase. Pre-registration for this event is required, as space is limited.

Rejoignez vos collègues délégués au Spirit of Newfoundland (le théâtre Gower, 208 rue Gower) pour la réception de clôture, dans le style des kitchen parties/fêtes de cuisine. Terre-Neuve est célèbre pour ses kitchen parties/fêtes de cuisine. Dans une atmosphère détendue, les invités seront encouragés à se déplacer dans la salle et à discuter tout en dégustant des amuse-bouches et des apéritifs inspirés de Terre-Neuve, avec des boissons locales disponibles à l'achat. L'inscription préalable à cet événement est requise, car les places sont limitées.

Student-focused events

Évènements pour les étudiants

Student Snack Break Social/Pause-collation sociale pour les étudiants

Location/salle: SN2000

Date: Thursday, August 15/jeudi 15 août

Time/heure: 10:00 – 10:30 a.m.

Looking to connect with other students at the CAG conference? Memorial University's Geography Graduate Student Association invites you to join us for a morning break with local snacks during the first morning of the conference. Refuel, find a conference buddy, and learn about student-specific activities happening throughout the week.

Vous cherchez à rencontrer d'autres étudiants lors de la conférence de l'ACG ? L'association des étudiants diplômés en géographie de l'Université Memorial vous invite à nous rejoindre pour une pause matinale avec des collations locales lors de la première matinée de la conférence. Reprenez des forces, trouvez un compagnon de conférence et découvrez les activités spécifiques aux étudiants prévues tout au long de la semaine.

Student Networking Event/Évènement de réseautage pour les étudiants

Location: TBD

Date: Friday, August 16/vendredi 16 août

Time: 7:00 – 9:00 p.m.

Join Memorial University's Geography Graduate Student Association for a night of food and networking. This event will bring together faculty and students for structured networking activities, socializing, and locally catered food. Some local prizes will also be available, we hope to see you there!

Rejoignez l'Association des étudiants diplômés en géographie de l'Université Memorial pour une soirée de nourriture et de réseautage. Cet évènement rassemblera les membres du corps professoral et les étudiants pour des activités de réseautage structurées, des moments de socialisation, et des mets localement préparés. Quelques prix locaux seront également disponibles. Nous espérons vous y voir !

Historical Map Exhibition/exposition des cartes historiques

Location/lieu: Map Library, first floor/première étage, QEII Library

August 15-16 août, 10 a.m. to 4 p.m.

Fabian O'Dea Map Collection

In 2005, the Centre for Newfoundland Studies received a donation of 99 maps and charts of early Newfoundland and Labrador. The donor, Dr. Fabian O'Dea, had passed away the previous year. He was a well know public figure, former naval officer, one-time French consul, businessman, barrister, former lieutenant-governor (1963-69), honorary colonel of the Royal Newfoundland Regiment, art connoisseur, and scholar.

He started collecting maps of his home island of Newfoundland while serving in WWII. While on his leaves in Britain, he would visit shops and purchase maps and charts that caught his interest. Throughout his life, in between the many careers he had, he would find time to not only collect his treasures, but study them and he published numerous articles over the years dealing with cartographic and toponymic history, as well as give presentations.

During the Canadian Association of Geographers Conference, a number of the O’Dea maps and charts will be on display in the Map Room in the QE II Library. Please drop in and enjoy these fascinating and wonderful documents on the early cartography of Newfoundland and Labrador.

Collection de cartes Fabian O’Dea

En 2005, le Centre d’études de Terre-Neuve a reçu un don de 99 cartes et graphiques représentant les débuts de Terre-Neuve-et-Labrador. Le donateur, le Dr. Fabian O’Dea, était décédé l’année précédente. Il était une figure publique bien connue, ancien officier de marine, consul de France, homme d’affaires, avocat, ancien lieutenant-gouverneur (1963-1969), colonel honoraire du Régiment royal de Terre-Neuve, connaisseur d’art et érudit.

Il a commencé à collectionner des cartes de son île natale, Terre-Neuve, alors qu’il servait pendant la Seconde Guerre mondiale. Lors de ses permissions en Grande-Bretagne, il visitait des magasins et achetait des cartes et des graphiques qui attiraient son attention. Tout au long de sa vie, entre les nombreuses carrières qu’il a eues, il trouvait le temps non seulement de collectionner ses trésors, mais aussi de les étudier. Il a publié de nombreux articles au fil des années sur l’histoire cartographique et toponymique, et a donné des conférences.

Pendant la conférence de l’Association canadienne des géographes, un certain nombre de cartes et graphiques de la collection O’Dea seront exposés dans la salle des cartes de la bibliothèque QE II. Veuillez passer pour admirer ces documents fascinants et merveilleux sur la cartographie ancienne de Terre-Neuve-et-Labrador.

Detailed program and schedule/programme détaillé et horaire

Wednesday August 14 / mercredi le 14 août

Registration desk open 1-4 p.m.

Bureau d'inscription ouvert 11 h – 16 h

Bruneau Centre Atrium

Field trip: Townie Walk/Promenade en ville

2-4 p.m.

Join Arn Keeling and Nick Lynch for a relaxing pre-conference stroll from Memorial University campus to St. John's harbour. Along the way, explore urban rivers, historic neighbourhoods, parks, and the downtown harbourfront. This is a 2-hour, 3.5 km easy walk along packed trails and sidewalks—comfortable walking shoes recommended. Meet at Bruneau Centre Atrium.

Rejoignez Arn Keeling et Nick Lynch pour une promenade pré-conférence relaxante du campus de l'Université Memorial jusqu'au port de St. John's. En chemin, explorez les rivières urbaines, les quartiers historiques, les parcs et le front de mer du centre-ville. Il s'agit d'une promenade facile de 2 heures sur 3,5 km le long de sentiers aménagés et de trottoirs - des chaussures de marche confortables sont recommandées.

Thursday August 15 / jeudi le 15 août

Registration desk open 8 a.m.

Bureau d'inscription ouvert 8 h

Unsettling Geography's Colonial Legacy

Panel session/table ronde

Organizer: Charles Mather, Dean Bavington, and Madelyn White, Memorial University of Newfoundland

Room/salle	Time/heure	Panelists/panélistes	Description
SN-2018	10:30-11:45	Chief Mi'sel Joe, Sheila O'Neill, Michaela Doucette, Madelyn White, Dean Bavington, Charles Mather	The aim of this panel session is to think through the processes through which Geography Departments might unsettle their colonial legacies within the academy. This concern emerges out of a specific problem: the Geography department at Memorial University has been awarding outstanding undergraduate students the 'Captain James Cook Memorial Scholarship' since the 1970s. The naming of this scholarship is in honour of the well-known British navigator who has had a legacy built around his so-called 'discovery' of Australia and New Zealand in the late 1700s. Prior to his voyages in the Pacific, Cook spent time in Newfoundland and Labrador mapping the coastlines under British order. We are currently undertaking a process of rethinking the presence of colonial legacies in our department and what reckoning with them may look like. We hope this panel session will help us — and potentially other Geography Departments — in developing practices to unsettle our colonial legacies in a way that engages all members of our community.

Doing Feminist Urban Research: Insights from the GenUrb Project

Panel session/table ronde

Organizer: Linda Peake, York University

Room/salle	Time/heure	Panelists/panélistes	Description
A-1046	10:30-11:45	Linda Peake Mantha Katsikana Mel Mikhail Biftu Yousuf	This session introduces urban geography researchers to the newly emerging 21st century global landscape of feminist urban research. In this session we build on the forthcoming textbook: Peake, L., Razavi, N., Smyth, A. (eds) (2024) <i>Doing feminist urban research: Insights from the GenUrb project</i> . London: Routledge, to address both the institutional and lived reality of the practice of feminist urban research via the insights of a transnational research project (GenUrb). We discuss new and standard techniques and practices of research— ethics protocols, professional standards such as EDI and data management plans, feminist methodologies and methods for data collection, feminist engagement with NVivo, and knowledge mobilisation in the time of the Sustainable Development Goals—but also how to navigate the politics of decolonising research and working across difference, be guided by feminist ethics and activism, embark on the practice of translation, interact with partners and participate in teamwork, critically engage with the ‘field’ through comparison and feminist geo-ethnographies, employ

social media, and handle crises, such as pandemics.

Knowledge dissemination through podcasts—a conceptual and practical guide

Workshop/atelier

Organizer: Linda Peake, York University

Room/salle	Time/heure	Panelist/panéliste	Description
A-1046	1:15-2:30	Mantha Katsikana and Karen de Souza, Red Thread	This workshop engages with how to make long-format podcasts as a mode of knowledge dissemination and mobilisation in academic and grassroots participatory projects. The workshop draws on examples from the GenUrb project to explore two aspects of podcast production: (1) the design of a podcast, from its focus, to the research process it requires, to collaborating with communities and setting thematic agendas; and (2) the practical aspects of production, from recording, to editing and making the podcast available online, through social media and streaming platforms and the use of equipment and sound-mixing software. Additionally, the workshop addresses how podcasts can be used as part of publishing strategies for research projects as well as their role as a format for public scholarship.

Geographic Graduate Training and Knowledge Production: Exploring Opportunities and Challenges for Decolonization, Inclusion, and Career Preparation

Panel session/table ronde

Organizer: Noella Gray, University of Guelph

Room/salle	Time/heure	Panelists/panélistes	Description
SN-2018	3:00-4:15	Victoria Hodson, Arn Keeling, Sam Morton, Chantelle Richmond, Niyokamigaabaw Deondre Smiles	While Geography as a discipline is not as committed to a 'canon' as some others, it is nonetheless similarly implicated in the historical and ongoing reproduction of systems of oppression. Geographers must grapple with how to train a next generation of scholars while taking seriously our responsibilities to dismantle these systems. In a Canadian context this must include attention to UNDRIP and the TRC Calls to Action as concrete responses to settler colonialism, along with consideration for the ongoing marginalization and sidelining of all 'othered' peoples and epistemologies. Put simply: while we may not have a 'canon', neither do we have an inclusive discipline. At the same time, our graduate programs face other inter-related challenges: a continuously shrinking academic job market for PhD students in a neoliberalized sector; declining funding and increasing pressures to 'publish and get out'; and increasing prevalence of mental health challenges, among others. This panel aims to reflect on what we are doing (or not doing) to confront these challenges in our graduate teaching and training, and what we could and should do better or differently. It encourages frank and pragmatic reflections from diverse perspectives on the discipline. How are we –

and how should we be – training the next generation of geographic knowledge producers?

Panel session/table ronde

Organizer: Nancy Worth, University of Waterloo

Room/salle	Time/heure	Panelists/panélistes	Description
A-1043	3:00-4:15	Sutama Ghosh, Adi Khaitan, Sonja Knutson, Zhixi Zhuang	This invited panel partners a paper session on the Geographies of International Students. In the panel, we will bring together advocates, activists, university staff and international students to learn from diverse actors working on this issue. The panel aims to take a grounded approach—how do panelists live through/work with/contest the inequalities faced by international students? We will use a collaborative, roundtable format, engaging participants and panelists with an aim of sharing experiences, strategies and ways forward.

Feminist NVivo Workshop

Workshop/atelier

Organizer: Linda Peake, York University

Room/salle	Time/heure	Panelist/panéliste	Description
A-1046	3:00-4:15	Biftu Yousuf, PhD (Geography, York University)	This session begins by exploring the arguments that both support and oppose the use of Computer Assisted Qualitative Data

Analysis Software (CAQDAS), encouraging participants to examine and challenge their own assumptions. It then introduces NVivo as a research tool for feminist research, focusing the discussion on 'why' and 'when' the GenUrb project used CAQDAS to aid its engagement in feminist analysis. Through these learnings, participants will be better able to contemplate the possibilities and limitations of NVivo, and identify critical approaches to working with software to support analysis for feminist research.

Politics of Mobility II

Special Session

Organizer: Philip Gordon Mackintosh, Brock University

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre
SN-2098	3:00	David Butz, Brock University	Portering Labour Relations, Identity and the Performance of Mobile Subjectivities in the Karakoram, Pakistan
	3:15	Richard Osei Bonsu, University of Ghana	"Staying Awake - Vulnerable and Voiceless in the 'dreamland of Greener Pastures'
	3:30	Nancy Cook, Brock University	Mobility, mobile phone infrastructure and gendered subjectivity formation in Shimshal, Pakistan
	3:45	Laurie Guimond, Université du Québec à Montréal	Voices from the edge: Melting Route Blanche and the Politics of (Im)mobility on the Lower North Shore (Québec)
	4:00	Noah Kelly, McGill University	Experiences of Transportation Poverty Among Youth Experiencing Homelessness in Toronto

**Opening Reception/ Réception 5-7 p.m. Emera Innovation Centre, Signal
d'ouverture and CAG Awards/ Hill Campus
prix de l'ACG**

Shuttle buses depart from outside the Macpherson College residences on the main campus immediately following the final afternoon sessions. For those wishing to walk, it takes about 45 minutes from campus, but there is no bus service, so if traveling independently we encourage you to share a taxi. Appetizers and soft drinks will be served and bar service is also available. Buses will return back to campus after the event.

Des navettes partiront de l'extérieur des résidences du Collège Macpherson sur le campus principal immédiatement après les dernières sessions de l'après-midi. Pour ceux qui souhaitent marcher, cela prend environ 45 minutes depuis le campus, mais il n'y a pas de service de bus, donc si vous voyagez indépendamment, nous vous encourageons à partager un taxi. Des amuse-bouches et des boissons gazeuses seront servis et un service de bar sera également disponible. Les bus retourneront au campus après l'évènement.

Friday August 16 / vendredi le 16 août

Registration desk open 8 a.m.

Thinking through Arctic metabolisms – flows, frictions, transformations

Special Session

Organizer: Nathan McClintock, Institut national de la recherche scientifique (INRS)

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre
SN-2098	8:30	Morgan Manuel, Memorial University of Newfoundland	International labour migration in Whitehorse, Yukon: a critical northern geography approach

8:45	Nathan McClintock, Institut national de la recherche scientifique (INRS)	Mediating metabolism: Food programs in Inuit Nunangat
9:00	Mark Stoller, Queen's University	Critical Youth Geographies, Northern Research, and Flows of Knowledge Ex/Change
9:15	Riley Cotter, Memorial University of Newfoundland	Community-centered microplastic monitoring in Nunatsiavut, Labrador
9:30	Cynthia Morinville, Université du Québec à Trois-Rivières	Discussant

On the Edge of Glory: What would a just, green transition really look like?

Panel session/table ronde

Organizer: Camille Ouellet Dallaire, Memorial University of Newfoundland

Room/salle	Time/heure	Panelists/panélistes	Description
SN-2025	8:30-9:45	Camille Ouellet Dallaire, Katherine Pendakis, Angela Carter, Sarah Martin	Listening to the news and politicians, Newfoundland is on the edge of glory. More money, more jobs, all due to four Wind-to-Hydrogen projects across the province. But what does this look like on the ground? Who will benefit? Who is the government listening to? In this panel, we explore what could a just, green transition look like. We bring together four experts from different perspective, feminist cumulative impacts, local and rural community engagement, decarbonization, and social conflicts, to discuss what they see has potential pitfalls and benefits of the green transition. Experts will discuss also how these bright and just futures could potentially be enacted.

Small and Mid-Size Cities: Precarity at the Edge

Special Session

Organizer: Bernard Momer, Donna Senese, University of British Columbia, Okanagan campus

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre

Exploring Canadian Geospatial Data with GeoPandas in Colab Notebooks

Workshop/atelier

Organizer: Christopher Macdonald Hewitt, Wilfrid Laurier University

Room/salle	Time/heure	Panelist/panéliste	Description
A-1043	8:30-9:45	Christopher Macdonald Hewitt, Wilfrid Laurier University	Google Colab with the GeoPandas Python package is an effective platform for GIS analysis. This introductory workshop will demonstrate how users can load, project, query and visualize GIS data through graphs and maps. To participate, all that is required is a Google account. Future directions of where this platform could be taken will also be discussed. Lastly, the benefits and drawbacks of GIS analysis with Google Colab are presented.

Concurrent sessions/Séances simultanées

1-2:15 p.m.

Critical Indigenous Approaches: The Places of Transformative Hope

Panel session/table ronde

Organizers: Nicole Latulippe, University of Toronto, Madeline Whetung, Toronto Metropolitan University

Room/salle	Time/heure	Panelists/panélistes	Description
------------	------------	----------------------	-------------

SN-2018	1-2:15 p.m	Nicole Latulippe, Kristi Leora Gansworth, Justin Rhoden	<p>This special session draws upon Indigenous place-based (not bound) thought to consider moments and movements of transformation in our everyday geographies. As the global community has witnessed a concurrence of macro-crises, from 2023's record-setting warming, to international conflict, to increased disease, the everyday weight of these immense obstacles looms. Yet, there can remain much hope in the everyday, should we choose to see it there. We consider together the geographies of hope that are offered up through our everyday relationships with land and water, and through intimate relationship with our place-based teachers. At the micro-scale we can be witness and participant in the transformation of our world. Coming together with scholars who each are working in their everyday to engage their places as spaces where hope can grow, we will discuss the importance of centering critical and Indigenous approaches to place—where Indigenous sovereignty, the non-abstraction of land, and host-guest relationalities are taken seriously—as guides for transformative change.</p>

Living and Working across the Edges of Geography: exploring the intersections of geography, alt-ac careers, activism, and academic pursuits

Workshop/atelier

Organizer: Geography Graduate Student Association, Memorial University of Newfoundland

Room/salle	Time/heure	Panelist/panéliste	Description
A-1043	1-2:30	Marie Aastrup, Caitlynn Beckett, Lucas Brehault	What happens after graduation? How does geography inform (or not) what you are doing now? This workshop is geared towards students of geography, recent graduates, and those interested in hearing what others have gotten up to post-graduation. Geographers often navigate the intersections of research, activism, academia, and industry. This workshop aims to serve as a platform for critical reflection and dialogue on the tensions and possibilities that come from working across these edges. We are particularly keen to hear from recent geography graduates.

CAG Lecture

4:30-5:30 p.m., Core Science Facility Whale Atrium

Dre. Kate Sherren, Professor and Director, School for Resource and Environmental Studies/Professeure et Directrice, École des études sur les ressources et l'environnement , Dalhousie University

Landscapes on the Edge (Paysages à la Limite)

Many landscapes are on the edge literally, particularly here on the Atlantic Coast of Canada. But landscapes everywhere are on the edge metaphorically: on the edge of change. Tackling the collective challenges we face, and redefining a 'good life' in these new circumstances, will likely transform the places and landscapes that we care about. Yet change is hard and it is felt unevenly across space and social strata. We often instinctively feel that the landscapes of the present should dominate the future—an idea I've been calling climax thinking—but in many cases those current landscape settings solve old problems and cause new ones. Drawing on recent empirical Atlantic research about renewable energy and coastal adaptation, this lecture explores some of the cultural shifts required to reimagine our landscapes and to meet the challenges ahead, identifying key roles for geographers along the way.

CAG Reception to follow, 5:30-7:30 p.m.

Student Networking Event/Évènement de réseautage pour les étudiants

Location: TBD

Date: Friday, August 16/vendredi 16 août

Time: 7:00 – 9:00 p.m.

Join Memorial University's Geography Graduate Student Association for a night of food and networking. This event will bring together faculty and students for structured networking activities, socializing, and locally catered food. Some local prizes will also be available, we hope to see you there!

Rejoignez l'Association des étudiants diplômés en géographie de l'Université Memorial pour une soirée de nourriture et de réseautage. Cet événement rassemblera les membres du corps professoral et les étudiants pour des activités de réseautage structurées, des moments de socialisation, et des mets localement préparés. Quelques prix locaux seront également disponibles. Nous espérons vous y voir !

Emotions and the Climate Crisis: Choices, Behaviours, and Futures

Panel session/table ronde

Organizers: Lauren Smith, University of Waterloo, Sarah Elizabeth Wolfe, Royal Roads University

Room/salle	Time/heure	Panelists/panélistes	Description
SN-2025	10:15-11:30	Misty Matthews-Roper, Fergie Maxwell, Zaara Momin, Lawrence Nditsi, Lauren Smith, Gabriela Vieyra, Melanie Zurba	Climate change is rapidly increasing extreme, unpredictable weather, altering individuals' lives worldwide. Women, marginalized groups, economically repressed communities, and those with underlying health concerns are disproportionately vulnerable. Meanwhile, viable climate solutions will require insights from those historically pushed to the edges - and at greatest risk from climate change - if we are

to collaboratively create the most effective and equitable options.

However, climate decision-making is hindered and undermined when we ignore emotions' influence on our capacity to identify climate solutions. The human rationality myth – that emotion-free decisions are possible – persists, limiting our ability to recognize emotional nuance and impacts on our beliefs and choices.

Place, geography and social and physical determinants of women's health

Special Session

Organizers: Grace De Michino, Caroline Barakat, Adrianna Trifunovski, Jayda Hylton-Pelaia, Ontario Tech University

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre

Supporting Student Wellness

Workshop/atelier

Organizer: Kate Parizeau, University of Guelph

Room/salle	Time/heure	Panelist/panéliste	Description
SN-2025	1-2:15	Kate Parizeau, University of Guelph	Mental health is a serious concern on university campuses. The changing nature of higher education can cause mental health stress for instructors, staff, and students. I propose to host an open roundtable workshop for instructors and supervisors to share our concerns and to share our ideas on how to best support our undergraduate and graduate students who are struggling with mental wellness. Mental health is often framed as an individual problem: I hope that this session can help us to see wellness as

both a collective concern and as a structural problem in the academy.

Carceral Geography I

Special Session

Organizer: Kirsten McIlveen, University of British Columbia

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre
A-1045	1:00	Sid Jackson, independent researcher	The Carceral Continuum and the Toronto Shelter System

Living With Water: Coastal Adaptation in the Lower Mainland, B.C.

Panel session/table ronde

Organizer: Brent Doberstein, University of Waterloo

Room/salle	Time/heure	Panelists/panélistes	Description
SN-2025	10:15-11:30	Brent Doberstein, Devon Jones, Shaieree Cottar, Kees Lokman, Matt Osler	This panel session showcases the research outcomes of a four-year, Pacific Institute for Climate Solutions-funded project which is focused on coastal adaptation in the Lower Mainland, British Columbia. The project goes beyond municipal boundaries to encompass the broader Lower Mainland and Fraser Delta regions, while considering the socio-ecological systems that are crucial for effective coastal adaptation. The session will explore three main elements of effective coastal adaptation: 1. Community Engagement, including Indigenous

Perspectives: Explore the foregrounding of Indigenous and local perspectives in coastal adaptation. 2. Innovative Adaptation Solutions: Present decision-support and innovative solutions for coastal adaptation, including living dikes, managed retreat, and nature-based approaches, which are crucial for expanding the solution space beyond traditional methods. 3. Multi-level Governance for Adaptation: Discuss the need for multi-level governance arrangements to facilitate regional coastal adaptation, ensuring effective coordination and collaboration among stakeholders.

Carceral Geography II

Special Session

Organizer: Kirsten Mclveen, University of British Columbia

Room/salle	Time/heure	Presenter/présentateur/r/e	Title/titre
A-1045	2:45	Kirsten Mclveen, University of British Columbia	Disappeared behind prison walls: geographies of (dis)connection
